

# UGUR CAN AKCAY

I am a developer who wants to create new things and learn something new. I am always up for a new challenge and eager to learn new things and use them in projects. I have experience working with Unity3D and C# and have worked on 2D games with Unity. As a co-worker, I'm hardworking, highly motivated with good communication skills. And a team player with a strong work ethic. I try to learn something new everyday and keep up with the latest technologies.
